

# Neon Church

Tim McGraw

I need Jesus or I need whiskey  
Whatever works best to get me through  
Gettin' over you A little Friday night Hallelujah  
A congregation of backsliders just like me  
Yeah, what I need Is a neon church with a jukebox choir  
Full of honky tonk angels with their wings on fire  
Straight pourin' out that Johnnie Walker healin'  
I got a feelin'

I need a neon church Baptize me in that barroom smoke  
Bartender, preach to me 'til my heart ain't broke no more  
Ain't that what this place is for?

I tried bended knee, hands-up prayin'  
But damn did that hurt, don't just keep hangin' around  
What I need right now Is a neon church with a jukebox choir  
Full of honky tonk angels with their wings on fire  
Straight pourin' out that Johnnie Walker healin'  
I got a feelin'

I need a neon church Get to sippin' that unholy water  
Save that hurt-like-hell for tomorrow  
I'll stay here all night In a neon church with the party crowd  
Where the good times roll and the music's loud  
Instead of home starin' holes in the ceiling  
I got a feeling

Is a neon church with a jukebox choir  
Full of honky tonk angels with their wings on fire  
Straight pourin' out that Johnnie Walker healin'  
I got a feelin'

I need a neon church
