

# When I Call Your Name

[LeAnn Rimes](#)

I rushed home from work like I always do  
I spend my whole day just thinking of you  
When I walked through the front door my whole life was changed  
'Cause nobody answers when I called your name Oh, the lonely sound of my voice calling  
Is driving me insane  
Oh, and just like rain, the tears keep falling  
But nobody answers when I call your name A note on the table that told me goodbye  
It said you'd grown weary of living a lie  
Your love has ended but mine still remains  
Nobody answers when I call your name Oh, the lonely sound of my voice calling  
Is driving me insane, driving me crazy  
Oh, just like rain the tears keep falling  
But nobody answers when I call, when I call your name
