

# In My Dreams

Tracie Spencer

You're not in my world  
Not everyday life  
When my eyes are open  
You're nowhere in sight

But there is a place  
where I see you  
All of the time

It's where I go  
and I know you'll be there  
waiting  
I live in my dreams with  
You at night

You're there just for me  
Every night of the week  
You're right by my side  
when I'm fast asleep  
You live in my dreams  
In my dreams

I wish you were real  
But I know that you're not  
I feel like we've been  
together a lot  
and if there came a day  
that I saw you  
You'd know my name

But until then  
I want to keep you  
In my dreams

You're there just for me  
Every night of the week  
You're right by my side  
When I'm fast asleep  
You live in my dreams

In my dreams

You live in my dreams

Seven nights a week

You live in my dreams
