She Takes Me High

We The Kings

Last nights dream
We rode our bikes
To our tree house by the sea
And there we laid and said we'd never leave.
Last nights dream
I promised you would have
The whole world at your feet
And that we'd lay On a bed we made of leaves.
And we both know
You're everything I need
And now I know
What she does to me
She takes me High
She takes me High
She takes me High
She takes me High
She wakes me up
She breaks me down
Shes got me 10 feet off the ground
She takes me High, high
She takes me high tonight
Last nights dream
We drove your car
To the dead end of your street
And we made love where no one else could see.
Last nights dream
I held your hand

And asked if you would be
Forever mine, together you and me.
And we both know
You're everything I need
And now I know
What she does to me
She takes me High
She takes me High
She takes me high
She takes me high
She wakes me up

She breaks me down
Shes got me 10 feet off the ground
She takes me High tonight.
Ill keep sleeping
If I don't stop dreaming
I would stop my breathing for you
I'm not leaving
This life I'm dreaming
Cause I cant stop living with you.
She takes me High
She takes me High
She takes me high
She takes me high..
She wakes me up
She breaks me down
Shes got me 10 feet off the ground
She takes me High, high
She takes me high tonight
