

Another Life

Caleb Johnson

Don't wanna tell you About a life we will never know Don't wanna tell you About a moving picture show that's
in my mind, all black and white Shakes your soul and makes you cry We had it all but let it die ; Maybe its
nother time Maybe its another day Maybe its Another Life, for you and me. (Uhuhuhu) What if tomorrow was
the first day that we met?

And what if tomorrow was a day we copuld forget?

I d make you light up in the dark,

Paint the sky and leave our mark

So that everyone could see what would never be ;

Maybe its another time

Maybe its another day

Maybe its Another Life, for you and me.

Maybe its another time

Maybe its another day

Maybe its Another Life, for you and me.

Sweetest thing that i ever had

Loved so good it hurt so bad

Life is cold but i ain't mad

Not at that, not at that i ain't mad at that Cause i know what we hold is the greatest story never told

Woahhaohh

;

Maybe its another time

Maybe its another day

Maybe its Another Life, for you and me.

Maybe its another time, maybe its another place

Maybe its another time, maybe its another place

(hhah hahh)

;

Maybe its another time

Maybe its another day

Maybe its Another Life, for you and me.

,

Maybe its another time

Maybe its another place

Maybe its another day

Maybe its Another Life, for you and me.
