Love Under Key

La Rocca

I feel that look upon your face
You're thinking about some place
Where memories can be a way out
Of life that feels too spread out
And then, if my companion gets tired
Of walking the road by my side
Lets take a seat on the fence here
I need to find out from you dear

What kind of man did you dream of
Was he making mistakes like i was

I, oh, I'd ambition too
But it never made sense till you
The things that make me nervous
Seemed to leave as we progressed

What kind of man did you dream of
Was he making mistakes like i was
And using what you never see
To keep all your love under key

What kind of man did you dream of
Was he making mistakes like i was
And using what you never see
To keep all your love under key
