

Blue Girl

Q-Tip

[Verse 1:]

Looking in your eyes and it's sparkling

Listen to your laugh, it's disheartening

I can see your [?], it's clear to me

I can tell you're hurting, it's plain to see[Chorus:]

Hoo hoo hoo, hoo hoo hoo hoo

Don't be blue, girl

Hoo hoo hoo, hoo hoo hoo hoo

Don't be blue, girl

Don't be blue, girl[Verse 2:]

Wanna let you know how you're making me feel

Got my head spinning like a ferris wheel

We can ride [?] until it's shangri-la

When we get [?], I can marry ya

Got my head spinning like a wonder wheel

Said I wanna let you know how you're making me feel

Making me feel

All you gotta do to soothe your pain

Close your sparkle eyes and chant to me[Chorus 2:]

Hoo hoo hoo, hoo hoo hoo hoo

Don't be

You're a blue girl

Hoo hoo hoo, hoo hoo hoo hoo

Don't be

Don't be blue, girl

Girl

Hoo hoo hoo, hoo hoo hoo hoo

Don't be

You're a blue girl

Hoo hoo hoo, hoo hoo hoo hoo

Don't be

Don't be blue, girl

Girl[Jazz Solo Break][Fade Out]Wait a minute, you got brains in your head

Then why you got that pain in your head

Always testing folks and always have a reason

Blame the pain from before, the sight is never leaving

Them self help books and that meditation

Can't set you free, you still have hesitation

Been trained "through pain there's love"

Most of us have sailed above
Pain, games, and lighting old flames
Girls, being blue is such a shame
Taking secrets with you to the grave
Little girl, it's you I can't save
Playing games and lighting old flames
Girls, being blue is such a shame Yeah, yeah, the birds
