All You Ever Do

Bif Naked

All you ever do is complain
Some trivial event has you in agony again
Why stay so full of frustration
When all you need to do is change your situation
All you ever is whine
Don't tell it to me
You're wasting my time
How can you expect me to help?
When you cant even be bothered to help yourself
All you ever do is whimper
Change your mind theres nothing simpler
Why you just sit there I don't understand
You IDIOT your life's in your own hands
All you ever do is bitch
You think you're the only one?with an itch?
To get out of you're crazy life
That stabs your back like a knife
All you ever do is freak
About the small things man your weak!
You've got to stop, your FUCKING moping
Stop sitting around your whole lifehoping
All you ever do is complain
Some trivial event has you in agony again
Why? Stay so full of frustration
When all you need to do...is change your situation!
