It's Christmas

Ronnie Milsap

The snow is on the ground.
The family's all in town, it's Christmas.
The children want to know
Why we hung the mistletoe, it's Christmas.

Then silently the night turns on a magic light
And it's Christmas all over the world.
And I hope that Santa Claus remembers every child
Because it's Christmas.

The lights upon the tree
Make delightful melody, it's Christmas.
There's a choir out in the night,
singing songs by candlelight, it's Christmas.

With every face aglow the young & old both know
It's Christmas all over the world
Love is flowing free. All the world's at peace
It's Christmas.

With every face aglow the young & old both know
It's Christmas all over the world.
And I hope that Santa Claus remembers every child
Because it's Christmas.

Love is flowing free. All the world's at peace
It's Christmas
