

Friends and Enemies

Freedom Fry

All of my friends are ghosts,
None of their eyes get close, to me,
Start out not holding stones,
But in the end we're enemies, Looking out the wonder,
Keep me caged up under till I crack the walls, till I crack the walls,
On the bus and under,
Keep me happy waiting, till I crack the walls, till I crack the walls All my friends are all my ene-enemies,
Know where to put the knife if they could,
All the nights and days they said they needed me,
Even if it was a lie it was good,
Ups and downs,
We're friends and enemies,
We're friends and enemies Caught in the open close,
Are you feeling the overdose, with me?
When you're standing me up I'm dead,
'Cause in the end you're all I need, Looking out the wonder,
Keep me caged up under till I crack the walls, till I crack the walls,
On the bus and under,
Keep me happy waiting, till I crack the walls, till I crack the walls All my friends are all my ene-enemies,
Know where to put the knife if they could,
All the nights and days they said they needed me,
Even if it was a lie it was good,
Ups and downs,
We're friends and enemies,
We're friends and enemies
We're friends and enemies,
We're friends and enemies Aooooooooo All my friends are all my ene-enemies,
Know where to put the knife if they could,
All the nights and days they said they needed me,
Even if it was a lie it was good,
We're friends and enemies,
We're friends and enemies
We're friends and enemies,
We're friends and enemies
