

Life (Kraft Music Hall Show 1968)

Sly & The Family Stone

Life, life
Clouds and clowns
You don't have to come downLife, woo ooo, life, woo ooo
Tell it like it is
You don't have to die before you liveYou might get angry sometimes
But don't let it turn you around
All you gotta do is get your livin' nowLife, life
Clouds and clowns
You don't have to come downYou might be scared of somethin' look at Mr. Stewart
He's the only person he has to fear
He'd only let himself get nearHe don't trust nobody
If he stopped bein' so shady
He could have a nice young ladyLife, life
Tell it like it is
You don't have to die before you liveYou're gonna be sad sometimes
You might wake up to find your pet is gone
But maybe, he's tired of bein' aloneDog gets hip, it has to go
If you're lovin' you can't be sad no moreLife, life
Clouds and clowns
You don't have to come downLife, woo ooo, life, woo ooo
Tell it like it is
You don't have to die before you live
