Up And Away

Dave Matthews

Girl picture this
You and me
On a G5 flight to heaven
This is where
You wanna be
Just a .. and the loving
I?m gone
And I need
The best party girl you ever seen
First class with me
Don?t be scared to go up and away with me
Up and away with me
[Chorus]Cause I?m gonna blow you up your world baby
I?ll fly you anywhere that you wanna go
Up and away [repeat]
Now picture this
No turbulence
..

You can?t resist
These complements that I?m whispering in your ear
See you with me
It?s like snow on a mountain peak
We can be like the sun is kissing the see
Let?s go up and away
Up and away
[Chorus]Take a trip to Mexico
Watching you spend my pesos
Where gonna make love on the sand
While whispering
I don?t say a word
Cause .. got you going crazy
And we won?t stop baby until we?ll reach the sun
.. my heart got beating like a drum
And I?m gonna introduce you to the ,, club
I?ll fly you any way any way you want to go
[Chorus]
