

# Winter Now

## Broadcast

Snow lies all around  
There's no sense of doubt  
You are the only one  
To keep me sane when all is wrongOh my heart  
Waits in winter nowDeep in every dream  
Though you're far from me  
There in the deepest snow  
I only wanted you to knowOh my heart  
Waits in winter nowFalling quietly  
There reminding me  
Though it's just a dream  
You're closer than you've ever beenOh my heart waits in winter now
