

In Fields of Clover

Kalee Hric

Lay me down in fields of clover
And be as still as you can
A bee will come and light upon
The flower in my hand
And I wont be scared of bees no more
No I wont be scared of bees no more
No more Float me down the river Jordan
Give me greater works than these
And Ill stand against evil
So the devil cant take advantage of me
And I wont be scared of devils no more
No I wont be scared of devils no more
No more Elevate me up the tallest tower Well look over distant lands
We will see forever
And Ill let go of the flower in my hand
And high as I might be
I wont be scared of heights no more No I wont be scared of heights no more
And I wont be scared of devils
And I wont be scared of bees
No matter where I go
I wont be scared no more
No more Lay me down in fields of clover
And be as still as you can
And I wont be scared no more
No more
