Stargazers

Mille

A grand oasis in the vastness of gloom
Child of dew-spangled cobweb mother to the moon
Constellations beholders of the 3rd vagrant
Theater for the play of life
Tragedienne of heavens
Watching the eyes of the night
Sailing the virgin oceans
A planet ride for the mother and child
Floating upon the quiet hydrogen lakes
In this ambrosial merry-go-round they will gaze
Ephemeral life touched by a billion year show
Separating the poet from the woe
Tragedienne of heavens
Watching the eyes of the night
Sailing the virgin oceans
A planet ride for the mother and child

Oracle of the Delphian Domine
Witness of Adam's frailty
Seer of the master prophecy
The stellar world her betrothed
Wanderers in cosmic caravan
Universal bond, the star born
A son in the search for the truth
Following the pages of Almagest
Discovering the origin of dreams
Stargazers ride through the ancient realms
Tragedienne of heavens
Watching the eyes of the night
Sailing the virgin oceans
A planet ride for the mother and child
