The Way She Moves

Forever The Sickest Kids

It's getting late, your eyes are closed and mine are wide awake
But still I could never go on, I could never go on like
Just like, I'm begging just to see your eyes again
I could never go on, I could never go on
Should I even care that you didn't say anything?
I tried to do my best
Should have given her better things
Like rings and roses
You never do reply when I hint the message
I try to smell my best with a bottle of escent
Getting to the point with style and romance
And I could never go on, I could never go on
The way she moves, oh well, I wanted her to stay awhile
Don't go, oh well
The way she moves, oh well, I wanted her to stay awhile
Don't go, oh well, oh
She's showing signs, emotion as she wipes the sleep away
I could get through this, I can get through this right
You've gotta give a little 'cause it takes a lot to get over you
'Cause it makes no sense to be permanent
If you're not feeling you right, right, right
The way she moves, oh well, I wanted her to stay awhile
Don't go, oh well
The way she moves, oh well, I wanted her to stay awhile
Don't go, oh well, oh
It's a terrible thing to know what you want
And to know you can't have it at all
All I wanted was to let you know how I
It's a terrible thing, it's a terrible, it's a terrible thing, oh
A terrible, terrible thing, oh no
The way she moves, oh well, I wanted her to stay awhile
Don't go, oh well
The way she moves, oh well, I wanted her to stay awhile
Don't go, oh well, oh
The way she moves, the way she moves
The way she moves, the way she moves
The way she moves, the way she moves
