New Riders of the Purple Sage

DawsonSomeday soon I'll come by
Riding from behind the hill
I'm gonna have a big white horse
Swear to god I will
Gonna have a big black hat
Gonna have my bedroll packed
I'm gonna come a riding up
And knock upon your door
Oh lady, it is such a lovely day
Oh lady, well I just dropped by to say
I'd like to take you with me, would you like to come?
When I go a-riding off into the setting sunWhen we both were very small
I asked you would you leave it all
And come and ride away with me
And you said wait and see
Well now we're farther down the line
And dreams should not be left behind
So now I'm asking you one more time
To ride away with me
Oh lady, it is such a lovely day
Oh lady, well I just dropped by to say
I'd like to take you with me, would you like to come?
When I go a-riding off into the setting sun
When I go a-riding off into the setting sun
When we go a-riding off into the setting sun
