

# Stronger

## Totally Enormous Extinct Dinosaurs

The feel I love in you is making me stronger  
But I know that heart, it waits for me just around the corner I know it seems right, but I cant help but look into  
the future my love  
Baby im yours, all yours, until the night im gonna let you down  
Heart ache, it feels right until the morning light  
Trust me im yours, all yours, up to the night im gonna fool around The feel I love in you is making me stronger  
But I know that heart, it waits for me just around the corner
