

Kissed It (feat. Velvet Revolver)

Macy Gray

Play me more, I'm down
Everyday my mind is cloudy
Got me love 'til it filled the sea
You say that I'm a drag
Tell me I've been looking sad
And nobody wants to party with me
And it's because of you
The shady things you do
The low ways that you treat me
Eh, endlessly I was gonna leave you
Then you kissed me
I wanted to leave you
Then you kissed me I was gonna leave you
Then you get me
Baby, you fixed it
When you kissed me I don't wanna fight
Baby, kiss it
'Cause I miss it
Make it alright
Boy, you light a fire in me
You treat me like a dog
Tell me all I do is wrong
Treat me like I wear a training bra
You push my love away
Then you come to save the day
Then the next thing I'll be seeing ya
With all the girls in the club
It don't feel like loving to me
Me, me I was gonna leave you
'Til you kissed me
I wanted to leave you
Then you kissed me I was gonna leave you
Then you get me
Baby, you fixed it
When you kissed me I don't wanna fight
Baby, kiss it
'Cause I miss it
Make it alright
Boy, you light a fire in me
Let me hear you, all you hot boys
You bring me down
You bring me up, it's alright
'Cause it's a love thing

Yeah, it's a love thing
One more time, love thing, alright
Now, all you ladies with a hot boy
They bring you down
They build you up, it's alright
'Cause it's a love thing
Say, love thing
Say, love thing
I was gonna leave you
Then you kissed me
I wanted to leave you
Then you kissed me
I was gonna leave you
Then you get me
Baby, you fixed it
When you kissed me
I don't wanna fight
Baby, kiss it
'Cause I miss it
Make it alright
Boy, you light a fire in me
I was gonna leave you
Then you kissed me
I wanted to leave you
Then you kissed me
I was gonna leave you
Then you get me
Baby, you fixed it
When you kissed me
I don't wanna fight
Baby, kiss it
'Cause I miss it
Make it alright
Boy, you light a fire in me
Alright
Okay
Aha
Alright
Okay
Aha
