Easy

MOTHXR

Hazy
like my own
Ache and moan
All your problems
EasyThe city line twisting into another
She's looking for it
an entering into another(Easy)
Tell me bout your karma
Don't try to push it cause we're it
Tell me bout your place
Don't try to push it I can pull you inFade in
Another day
Go your way
All my problems
Please meI think I need at least what I can hear
I think I need at least another(Repeat chorus)
