

# Hidden Driver

## LVL UP

Hidden driver  
[Forming shape inside my chest]?  
Omnipotent in the way that it arrests  
Every sense and every lesson  
I want to make a call, I guess  
But I can't completely stress enough  
[how I feel her presence shaking to the core]?  
and what's more is that I can feel three angels  
forming a place between everything that I see  
God is peeking,  
softly speaking,  
breaking everything  
'till I slowly do see  
She broke right through the mess he made  
Shoved an apple in his face  
Impaled him with the wrong end of the stake  
and I give thanks for every day  
But I still think of God in the same way  
as the moment in my dreams when I'm fading away  
What takes my place,  
It's a [??]  
Fucking everything  
Making rules for a buddy  
[??]God is peeking,  
softly speaking,  
Fucking everything  
'till I see, see, see, see
