Sounds

Freetempo

Take a breather, let your air out
This can get you somewhere
She's the queen of screaming shit out
If she lets you stand thereYou keep ringing in my head
You always do this to me
You keep ringing in my headWhatever happened to your song?
It's just how the radio sounds
We used to stay out all night long
Living on radio soundYou are thinking you know what's right
Nothing you can't see through
Stand and shiver, turn off your lights
And tell me no one's changed youYou keep ringing in my head
You always do this to me
You keep ringing in my headWhatever happened to your song?
It's just how the radio sounds
We used to stay out all night long
Living on radioYou keep ringing, ringing
Ringing, ringingWhatever happened to your song?
It's just how the radio sounds
We used to stay out all night long
Living on radioWhatever happened to your song?
It's just how the radio sounds
We used to stay out all night long
Living on radio sound
