

Victorious

Xuso Jones

We're falling into pieces
I wish we could delete and push rewind
Who said it would be easy?
There's gotta be a way back into life We used to be on fire
But every little spark seems dead and gone
Forgotten in the quiet
We're drifting all apart when we should be one, one, one Victorious
Should be one, one, one
Victorious But what if we run? Baby, what if we run?
And leave the world behind us
We will stay-ey-ey
Victorious Together as one, together as one
Nothing could ever stop us
We will stay-ey-ey
Victorious We're caught up in a circle
Just another cog in the machine
Reality got hurtful
It's time to break away and leave the scene Podemos conseguirlo
So Ñ±ar hasta el final But what if we run? Baby, what if we run?
And leave the world behind us
We will stay-ey-ey
Victorious Together as one, together as one
Nothing could ever stop us
We will stay-ey-ey
Victorious Oh... victorious
Oh... victorious But what if we run? Baby, what if we run?
And leave the world behind us
We will stay-ey-ey
Victorious Oh... victorious
Oh... victorious
