

She Spreads Her Wings

[Semisonic](#)

At night, she spreads her wings
She dreams of bigger things
She floats, above the town
She sings without a sound She can be anywhere at all
She can be anyone at all A glow and then a shine
What she hoped she would find
Tonight, tonight She's got a picture in her mind
She can be anyone at all At night, she changed her mind
She left the world behind
