Love Alone

Utopia

When she calls my name
Nobody says it quite the same
Gives me a feeling I never knew
Makes me so happy loving herLove and love alone
I'd wait a life just to have it here
Love is all I know and that can't be wrongIt's sometimes hard to see
Love isn't bought, it's got to be
There for the reason you want to share
To show somebody that you careLove and love alone
Conquers the world that can be so cold
Love is how we show just what we feelIt's enough for me
No, I can't say I need anything else
Love is here to be had by us all
Don't cheat yourselfI can say it now
Someday we'll all be there somehow
Everyone singing, love leads the way
'Til then I'm counting every dayLove and love alone
I'd wait a life just to have it here
Love is all I know and that can't be wrong
