

# Electricity

## Blood Stain Child

Run away fly away  
Dream away slip away  
Weep away sweep away  
Reaching out for the stars All your love All your hate  
All your sickness your fake  
Tiny minds I devour  
Dyin' a little inside My ambition decisions  
Illusions my arrows  
Go high in the sky  
Challenging Destiny  
I'm a voice in the desert  
Do you here me now? Crawling shadows  
Haunting my sleep  
Keep on breathing  
Wake up All your love All your hate  
All your sickness your fake  
Tiny minds I devour  
Dyin' a little inside My ambition decisions  
Illusions my arrows  
Go high in the sky  
Challenging Destiny Crawling shadows  
Haunting my sleep  
Keep on breathing  
Wake up Sudden acceleration  
Fading gravity  
Radiant transmissions  
Electricity  
Rising up from beyond  
I can feel your heartbeat  
Stretching out your hand  
I knew you'd try to find me Crawling shadows  
Haunting my sleep  
Keep on breathing  
Wake up Run away fly away  
Dream away slip away  
Weep away sweep away  
Reaching out for the stars All your love All your hate  
All your sickness your fake  
Tiny minds I devour

Dyin' a little insideMy ambition decisions

Illusions my arrows

Go high in the sky

Challenging Destiny

I'm a voice in the desert

Do you here me now?
