It's Fine With Me

Peet Project

Peet Project - Its Fine With Me

Everyday I wait for you to call
I check my cellphone every moment of the day
And I try to live my life but there's no other way
I keep on waiting for you each and every day

You're so fine
Your beauty makes my dreams come through
Why did you have go soon and live me all alone
Take your time
Maybe you will change your mind
And I will keep our precious dreams alive

Cause I'm missing you each day
Part of me says you're ok
And its fine with me
Missing you more and more each day
Ever since you ran away
But its fine with me

Believe me baby since you're gone there's no time
Cause I think about the way that I can get you back in my life
I dont sleep at night, I dont wake on time
But life is turning upside down cause you are the one who got me alive

You're so fine
Your beauty makes my dreams come through
Why did you have go soon and live me all alone
Take your time
Maybe you will change your mind
And chase a way to class for my sky

Cause I'm missing you each day
Part of me says you're ok
And its fine with me

Missing you more and more each day
Ever since you ran away
But its fine with me

Trust me you dont wanna know
What it feels like to be the one who's left behind
You're the one who gets to live your life
And I'm locked inside and each day I cry
I cry, I cry

Cause I'm missing you each day
Part of me says you're ok
And its fine with me
Missing you more and more each day
Ever since you ran away
But its fine with me
