

# Spanish Fly

## Suicide City

A thousand miles between our lips  
was wasted time I tried to kiss  
Spanish fly

Killing your loved ones  
for progress and energy  
I'll always fight  
what happened on that night  
shamefully thinking  
what I want you to go through  
relaxing into my pain  
my temper

I know now what is real  
you'll never see me again  
I pray you'll live for me  
because I am not man  
religeon has passed on me  
I disrespected an angel  
sliding down the razor  
it's delightful
