

# American Girl

## Clinton Ford

I'm watchin' day time TV  
I'm young and I'm restless  
I'm on no sunset beach  
I'm burnin' up in here in Texas  
Paranoia on day street  
Not enough to eat  
Too many burgers and these fries  
Are makin' me crazy  
It's kinda strange growin' up here  
Never less safe but don't be afraid  
You gotta take what you get here  
'Cause nobodies gonna change their ways  
Many places to travel in this world  
No matter where I go I'm an American girl  
This Disney World's your underworld  
Try to escape it just face it you American girl  
We all have the same dream  
We wake up on a reality series  
In a taxi cab confessing  
We're having to much 'Sex in the City'  
With our pre-paid cellular phones we call apartment homes  
By the time we're 14 yeah were already grown  
Where we'll end up from here well we don't really care  
Well we tear up every thing, we still love to be here  
Many places to travel in this world  
No matter where I go I'm an American girl  
Is this Disney Worlds your underworld  
Try to escape it just face it you American girl  
Many places to travel in this world  
No matter where I go I'm an American girl  
Is this Disney Worlds your underworld  
Try to escape it just face it you American girl  
From hooters to looters  
We're drowning in beer  
Your ruder I'm cruder  
Your blurred and I'm clear  
Your not helping me here  
'Cause we're living in fear  
I'm not judging you

But I'll push you and push you  
Many places to travel in this world  
No matter where I go I'm an American girl  
Is this Disney Worlds your underworld  
Try to escape it just face it you American girl  
Many places to travel in this world  
No matter where I go I'm an American girl  
Is this Disney Worlds your underworld  
Try to escape it just face it you American girl
