Pattern Of My Life

Annie Lennox

I like to wake alone, to lie and turn to stone
Comfort me, oh come to me, I won't go on
I like to walk along, to keep my head screwed on
Comfort me, oh come to me, I won't go on

Believing, believing
I believe you might turn from your love

Wait around, if I go I'm alone, if I stay it will mean waiting on my own
It's the pattern of my life when you care and you cannot feel
And you know that it's for real
So you leave me on my own to live the pattern of my life

Take time to be all this and more to me
You're the best, so well done you, I won't go on
Believing, believing
I believe you might turn from your love

Wait around, if I go I'm alone, if I stay it will mean waiting on my own
It's the pattern of my life when you care and you cannot feel
And you know that it's for real
So you leave me on my own to live the pattern of my life
Pattern of my life, pattern of my life

Wait around, if I go I'm alone, if I stay it will mean waiting on my own
It's the pattern of my life when you care and you cannot feel
And you know that it's for real
So you leave me on my own to live the pattern of my life
Pattern of my life, pattern of my life
Pattern of my life, pattern of my life
