Left for Dead

Jungle Rot

you are dead
rotting skin
decaying skulls
are caving INtaking one last look
blurred and bloody eyes
hallucinating things
beyond this life's demisecrying out
set me free
torturing
the inner meburning soul
black with hate
searches for
one to taste
blood is flowing free
pouring over me
clawing at your eye
wishing you to dieempty
souls will die
forbidden fate
souls will dieLeft for dead
bloody with a severed head
emotionless life
gasping for your
BREATHfeasting your fears
that eat your skindenying faith
evil comes and grabs
you by the facecrossed reality
sepetrating me
from my evil past
the pain will not last
