

# Left for Dead

## Jungle Rot

you are dead  
rotting skin  
decaying skulls  
are caving INtaking one last look  
blurred and bloody eyes  
hallucinating things  
beyond this life's demisecrying out  
set me free  
torturing  
the inner meburning soul  
black with hate  
searches for  
one to taste  
blood is flowing free  
pouring over me  
clawing at your eye  
wishing you to dieempty  
souls will die  
forbidden fate  
souls will dieLeft for dead  
bloody with a severed head  
emotionless life  
gasping for your  
BREATHfeasting your fears  
that eat your skindenying faith  
evil comes and grabs  
you by the facecrossed reality  
sepetermining me  
from my evil past  
the pain will not last
