

Nothing Can Break Us (feat. Ziyon)

[Jullian Gomes](#)

I know nothing is gonna break us, I know nothing is gonna break us, down
I know nothing is gonna break us
Just stay awake, and have a little faith, cause I
I know nothing is gonna break us
I know nothing is gonna break us, down
I know nothing is gonna break us, just stay awake, and have a little faith, yeah
Theres no need to worry, theres no need to fear now, your life is a celebration, yeah
The whole reason why you here, so
No matter what comes and goes, we gotta fight, they cant make us fall, No
No matter what they do or say, they cant devide us, there's nothing like us fall
I know nothing is gonna break us, I know nothing is gonna break us, down
I know nothing is gonna break us, just stay awake, and have a little faith, cause I
I can feel all around me, yeah
I can feel it in my bones
What asweet sensation, I'm not part of my very own, so
No matter what comes and goes, we gotta fight, they cant make us fall, no
No matter what they do or say, Hey
They cant divide us, there's nothing like us fall
I know nothing is gonna break us, I know nothing is gonna break us, down
I know nothing is gonna break us, just stay awake, and have a little faith, cause I
I know nothing is gonna break us, I know nothing is gonna break us, down
I know nothing is gonna break us, just stay awake, and have a little faith, ah
I know nothing can break us, yeah
I know nothing can break us
(oh oh oh oh)
Nothing can break us, down, ah
If we just stand together, yeah, yeah
