

# Hold On My Heart (The Presets Remix)

[Sarah Blasko](#)

All of these nights are long  
Hand on my heart you're strong  
Got a feeling that you'll survive  
These lost and these lonesome times You can't please somebody  
Can't please somebody else  
Until you learn to look after yourself  
You can't be somebody  
Can't be somebody else  
You've learned your lesson, put in on the shelf Hold on my heart  
Hold on my heart  
Find your stronger parts  
Hold on my heart Thinking of him each day  
When he is miles away  
You know it won't serve you well  
It's better for time to tell You can't please somebody  
Can't please somebody else  
Until you learn to look after yourself  
You can't be somebody  
Can't be somebody else  
You've learned your lesson, put in on the shelf Hold on my heart  
Hold on my heart  
Find your stronger parts  
Hold on my heart Though your growing up was hard  
Now you're not so easily crushed  
Still innocent and strange  
All your strength still remains You can't please somebody  
Can't please somebody else  
Until you learn to look after yourself  
You can't be somebody  
Can't be somebody else  
You've learned your lesson, put in on the shelf And hold on my heart  
Hold on my heart  
Find your stronger parts  
Hold on my heart Hold on my heart  
Be the light in the dark  
Set yourself apart  
And (hold on my)...  
Hold on my heart
