

Breaks My Heart

The Chords

Hey, yeah, hey, yeah
Yeah, yeah, hey, yeah
Oh, oh, oh, oh, oh, yeah
Oh, oh When I think of what I've done
All the pain that I've brought
Baby, you should 've walked out on me
And when I turned away from you
Whenever there were hard times
How could you still be with me? And it's no mistake, when I hurt you that day
And went out with somebody new
But still you forgave me like it was so easy
I should 've been better to you Baby, it breaks my heart
To think that lovin' me is not easy to do
And I don't mean to make it hard
Sorry for all the changes I put you through And it's hard to believe after everythin'
That you're still here right beside me
Wouldn't trade you for this whole world
Thankful just bein' your girl Never gave you my heart
'Cause I never thought
You deserved any of me
I never told you how I felt
When deep inside I knew that
You're really what I need And I always gave you up whenever I thought
Somethin' better came along
And right when I'd come back, you're waitin' for me
And you welcome me home Baby, it breaks my heart
To think that lovin' me's not easy to do
And I don't mean to make it hard
Sorry for all the changes I put you through And it's hard to believe after everythin'
You're still here right beside me
Wouldn't trade you for this whole world
Thankful just bein' your girl And if it takes my whole life
I'll make it up to you 'cause I've been so cruel
And you've given your love to me in spite of everythin'
I, I don't deserve you From this day forward, I'm truly yours
It took me a while to see
That we were meant for one another
Thank you for lovin' me Baby, it breaks my heart
To think that lovin' me's not easy to do

And I don't mean to make it hard
Sorry for all the changes I put you through And it's hard to believe after everythin'
You're still here right beside me
Wouldn't trade you for this whole world
Thankful just bein' your girl Baby, it breaks my heart
To think that lovin' me is not so easy to do
And I don't mean to make it hard
Sorry for all the changes I put you through And it's hard to believe after everythin'
You're still here right beside me
Wouldn't trade you for this whole world
Thankful just bein' your girl Da, da, da
Da, da, da
Da, da, da
Oh, I, I, I
Da, da, da
