

# Let Me In

## Russ

[Hook: Russ]

You should let me in

I got what you need

You're scared shit I'm scared too

Don't tell me to leave

You should let me in girl

Ohhhhh yea yea

Lemme in lemme in[Bridge: Russ]

You was always sellin your soul

Thinking it could buy you love

I would pick you up late late night

You never gave no fuck

You was takin bullets no vest

I was tryna take your heart

You ain't let yourself in

I was doomed from the start[Verse 1: Russ]

In love with people she never met

Places she never been to

I was tryna connect

Over weed over molly over liquor

Anything that would let me in quicker

That's how you know it's really real and I felt it

Shoulda saw this coming back when I was doing Velvet

But you were far from smooth

Layin in the same bed still far from you[Hook: Russ]

You should let me in

I got what you need

You're scared shit I'm scared too

Don't tell me to leave

You should let me in girl

Ohhhhh yea yea

Lemme in lemme in[Bridge: Russ]

You ain't never had no family

Mine was down to take you

In if you was with it

But you made me hate you

Always lying non stop

Always disrespectful

You was stuck on bullshit

I was stuck on potential[Verse 2: Russ]  
Hotels and cities are starting to blur together  
This liquor and this weed are starting to work together  
Got me thinkin I should try and revisit  
Bitches that I really shouldn't try and revisit  
Relive it  
Nah I think I'll pass  
I thought she was open  
Then she dropped the catch  
Over and over again  
I told her and told her again[Hook: Russ]  
You should let me in  
I got what you need  
You're scared shit I'm scared too  
Don't tell me to leave  
You should let me in girl  
Ohhhhh yea yea  
Lemme in lemme in[Bridge: Russ]
