

# Weight

## Papas Fritas

I just can't wait to be free  
This big old weight hanging over me  
I just can't wait to go to sleep  
I just can't wait till I can have a dream I just can't wait to go to sleep  
It's been so long since I had a dream  
I just can't wait to see my friends  
I just can't wait till I am back again I just can't wait to talk to you  
I just can't wait till we can start a new  
I just can't wait to be your friend  
I just can't wait to be in love again
