Restless (feat. Tom Petty & The Heartbreakers)

Carl Perkins

Well I walked up to her window I said, gimme a ticket please She said, where to mister? I said, that's all right with me(Honey I'm just restless I just need to get on out of town I need to go right now Take me where the living's easy
Baby, that's where I'll be found)Huh-huh, right now I said, honey tell that driver
To put his big foot on that gasRun this old grey dog Just as long as it might last(CHORUS)I said, honey tell that driver Take me farther down the road Just take this grey dog Any place he wants to go(CHORUS)I'm travelling light Because I might be going far
Takin' nothing but the clothes on my backAnd my big red guitar(CHORUS)
