

Please Don't Break My Heart

No Authority

Girl please, girl please, don't break my heart
Please don't break my heart
'Cause I can't see you without me, I need you girl
Please don't break my heart
'Cause without you there is no me, girl can't you see?
When I think of how it would be
Without you here with me, my life could not go on
Unhappy days, so much pain, so much rain
All my sunshine would be gone
Please don't break my heart
'Cause I can't see you without me, I need you girl
Please don't break my heart
'Cause without you there is no me, girl can't you see?
I promise, I will bring you happy melodies
All through the days, nothing will go wrong
Girl, I'll please you everyday
I'll make sure that we'll go on and on
Please don't break my heart
'Cause I can't see you without me, I need you girl
Please don't break my heart
'Cause without you there is no me, girl can't you see?
I can't control this love I have inside for you
I can't ignore this feeling that I feel
'Cause you're the one that keeps my heart safe and warm
You're the reason that I keep going on
Please don't break my heart
'Cause I can't see you without me, I need you girl
Please don't break my heart
'Cause without you there is no me, girl can't you see?
