

Under The Waves

Pendulum

I lie still at the border
But my visions are broken
Head caught in the torment
Cruel as the ocean Dreams are made in the distance
I will not be among them
Silence is killing me
And I can hardly touch the ground I am deep in a river
Waves above my head
Help with no spirit
We descend, we reach the end I am deep in a river
Waves above my head
Help with no spirit
We descend, we reach the end I am deep in a river
Waves above my head
Help with no spirit
We descend, we reach the end We descend
We reach the end
