

# Blade Down (feat. Tessa B)

## Synapson

The blade down  
Can you put the blade down  
The blade down  
Can you put the blade down You're so so  
I feel blue  
Don't even recognise myself  
That's I want to write down  
It was something the morning this place  
I was stuck when I tried to put the blade down  
What this town one way to feel it  
Down one way to feel it  
I guess I got some clue forget all  
It's not worth it  
I will fucking stray  
That's my only issue The blade down  
Can you put the blade down  
The blade down  
Can you put the blade down Don't move it's my attitude  
I don't belong to you  
I am my own crew  
And I know it taste better then a soul food  
But you can't buy my love with a cold boot  
Do I make love  
I was wiped out  
?? I can understand why you like  
Like a tough guy  
But you're finished  
Like a mission is diminished  
So we will not disgrace  
Remember the trace  
I guess we can escape  
And then we book out of face again  
Can we quit this role that makes me sick  
Now you must end the folly we can stop act quick  
Think get us back together  
I'm a dope chic and knock yourself better  
So the way I've got 'm crushing  
All I gotta to do is paying  
For the way I'm beginning The blade down

Can you put the blade down  
The blade down  
Can you put the blade downThe blade downCan you put the blade down
