

# I Got You

## Telekinesis

Train's speeding over the tracks  
I can't see through the fog  
I can't see where you're at Take every sin from your heart  
And put it to good use  
let it out from the start Oooooooh I got you  
Oooooooh I need you  
It's easy to believe what you do Oooooooh I got you  
Oooooooh I need you  
It's easy to believe in the truth We'll tear the air from your lungs  
The picture isn't clear  
Doesn't show anyone Black turns to gray in the sun  
It always fades away  
The colors bleed and they run Oooooooh I got you  
Oooooooh I need you  
It's easy to believe what you do Oooooooh I got you  
Oooooooh I need you  
It's easy to believe in the truth
