

# Candy Coated Kisses

**Bobby Bare**

You speak and the words flow like honey your kiss holds a promise so sweet

But all of these things that you tell me you tell to each new love you meet

Candy coated kisses sugar coated lies

Oh how I want to believe them but only a fool would try You smile and my whole world turns sunny you know  
just the right things to say

Your words paint such beautiful pictures pictures that soon fade away

How many hearts have you broken how many lips have you kissed

I don't wanna know so don't tell me just add my name to your list

Candy coated kisses...

Only a fool would try only a fool would try (candy coated kisses)
