

Strange Frontier

Roger Taylor

 Into the shadows
 From out of the light,
 Into the darkness
 And into the night,
 We're off the tracks
 We're off the lines
 You and me seen better times
 Now we're on the borderline
 And I wish I wasn't here
 People say, it could never happen here
 But this is a strange frontier
 Had some good times
 Had some fun
 Soon our problems
 Could be none
 We're on the skids
 We're off the lines
 We're out of luck
 We're out of time
 Now we're on the borderline
 We've nearly gone and done it this time
 People say it could never happen here
 But this is a strange frontier
 Freedom fighters come and go
 Bloody, righteous
 And mentally slow
 We're out of work
 We're out of time
 We're out of luck
 We're out of line
 Now we're on the borderline
 We've really gone and done it this time
 People say it could never happen here
 But this is a strange frontier
 Take your children while you can
 But there's nowhere you can run
 No more tears and no more fun
 Someday soon they'll drop the big one
 No more dad and no more mum
