

Gilded Cages

[Eric Matthews](#)

Lose who you are
Go by water or sands so far
My senses take all leave
Shut unseen, aware, yet bleedSun sure, I can see
It is only pinned on top of me
Halsey may, she groans that way
Come away, come away, comeTo my land of kicks for free
To my land of kicks for free, for free, freeWar in the heart
Splinters innocence, so many parts
My senses take all leave
No want or greed, I'm soon to leaveSince her I've perceived
So little reason, no bitter seed
If you love her, you'll believe
Someone sinister, sister weaveFor the queens of twisted easts
Falling shakes late Christmas Eve
