

One Life (Instrumental)

Boyce Avenue

You lie awake while the world's asleep
You've made mistakes and you're in too deep
But now is the time Alarm goes off but you feel too weak
Your soul's too heavy for your feet
But now is the time Open your eyes
And know you're free to come alive
You've got to live it while you can
We only get one life Look to the sky
Don't ever let it pass you by
You've got to live it while you can
We only get one life You've lost your faith and a life that's cursed
You've cried so hard inside it hurts
But now's the time Outside the sun is coming up
Inside you think you've given up
But now's the time Open your eyes
And know you're free to come alive
You've got to live it while you can
We only get one life Look to the sky
Don't ever let it pass you by
You've got to live it while you can
We only get one life
One life It's time to stand up and fight
It's time to make it right
We only get one life
One life
One life And when it feels like a lie
I'll be your reason to try
We only get one life Open your eyes
And know you're free to come alive
You've got to live it while you can
We only get one life Look to the sky
Don't ever let it pass you by
You've got to live it while you can
We only get one life
One life It's time to stay up and fight
It's time for making it right
We only get one life
One life
One life And when it feels like a lie

I'll be your reason to try
We only get one life
One life
