Torn

Poison the Well

Torn LyricsFeelings non existent
Loss of a tortured soul
So cold and fearful
Unnoticed and unaclaimed
Left as one alone
On this endless road
To bear on for a lifetime
Of loneliness
She sits alone
And slowly fades away into nothingness
And as she struggles on
Her mind begins to wander
Thoughts of endless bliss
And the wind her is her only friendNever again to be cared for
She holds her head up high
Just a mask to hide the tears behind
Only wanting to die (*3)As they sit by and watch
Another dead existence
Dreams torn apart
As the spirit dies
Hiding behind the lies
And silent darkness
