

Diversity (Remix)

Family of the Year

No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me I can't believe no one started yelling at me yet
I can't believe no one started yelling at me yet No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me Sometimes you make me lie awake at night it doesn't work
Sometimes you make me wanna run away but I don't go
So I close my eyes and picture if I can flip my pillow
Dream a dream and put the stars back in the sky Whoa whoa No trouble's ever gonna take anything away from
me
No trouble's ever gonna take anything away from me Oh yeah yeah No one is ever gonna take anything from me
again
No one is ever gonna take anything from me again
No one is ever gonna take anything from me again
No one is ever gonna take anything from me again Sometimes you make me lie awake at night it doesn't work
Sometimes you make me wanna run away but I don't go
So I close my eyes and picture if I can flip my pillow
Dream a dream and put the stars back in the sky Whoa
Whoa No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me
No trouble's ever gonna take anything away from me Oh yeah yeah I can't believe no one started yelling at me
yet
I can't believe no one started yelling at me yet
I can't believe no one started yelling at me yet
