

# Oh My My

## Little May

Hold my head inside your hands, talk me through the hours  
If I lost you all I'd say is oh my my In the garden where I begin, walk me through the hours  
If I lost you all I'd say is oh my my Oh, keep me safe  
Oh, keep me safe Somewhere I was hidden right, in another sky  
If I lost you all I'd say is oh my my You might think I made this plan in another life  
If I lost you all I'd say is oh my my Oh, keep me safe  
Oh, keep me safe  
Sun goes down  
But it comes right up  
Wait in the water  
Wait in the water for me  
What are you waiting  
What are you waiting for In the morning I remember you crying  
Keep pretending and I wonder if we'll stay together now  
Left behind till we see it all  
Let's create from the chaos that we used to call real Wait in the water  
Wait in the water for me  
What are you waiting  
What are you waiting for In the morning I remember you crying  
Keep pretending and I wonder if we'll stay together now  
Left behind till we see it all  
Let's create from the chaos that we used to call real  
Wait in the water  
Wait in the water for me  
What are you waiting  
What are you waiting for Oh, keep me safe  
Oh, keep me safe  
Oh, keep me safe
