

Dreams Come True

[Kaitlyn Maher](#)

You feel the world around you
It's sometimes cold and blue
the raindrops keep on falling
and there's nothing much to do

Though the sky it's dark and grey
I know there's one bright spot
you may not see it right away
but it's gonna help a lot

faith, hope, love
Let your heart dream of

Love over the rainbow
skies are blue
and if you love
your dreams come true.

When you feel discouraged
and feel your day's gone wrong
just stop to think of love
in your heart and song.

If the road gets bumpy
and you feel dismayed
there's a light to guide you
When you've lost your way

faith, hope, love
Let your heart dream of

Love over the rainbow
skies are blue
and if you love
your dreams come true.

Hold on tight
Let love be your guide
Hold on tight

Cast your cares aside

lift your head
look up to the sky
lift your head
Let love be your guide
Let love be your guide
Let love be your guide

Oooooo

Love over the rainbow
skies are blue
and if you love
your dreams come true.

Love over the rainbow
skies are blue
and if you love
your dreams come true.
your dreams come true.
